Forensic Science Hands On Workshop for Years 3-6

Ledger No. 8056-000-00

Dear parents and carers,

On **Wednesday 26 July 2017** a forensic science workshop will be held in the school hall for students in **years 3, 4, 5 and 6**. There will be 3 sessions and they will run for approximately 75 minutes each.

The workshops are designed to use real world forensic science as a vehicle to explore the world of science and take students on a journey through an interactive investigation. They are developed by forensic scientist and fit with the Australian Curriculum guidelines. 'A Case of Discovery' is about an auction house robbery. Students will examine the crime scene, take their own fingerprints, create coin impressions, build a DNA model and crack a safe code. During the course of the investigation, the students will put all of these things together to solve the crime and find out what has happened to the stolen goods.

The cost for the session will be \$7.00 per student and is payable to the front office by Tuesday 25 July 2017.

If you would like your child to participate in this exciting science workshop, please complete the permission note below and return to school with your payment. Payments may also be made online.

Katie Love
